the traveler, where he can get the very best
market affords, and the bar is second to none
in the State. Try the Grand Central once and you
won't stop anywhere else. DAN O'KEEFE,
174 Proprietor.

Spring Riding Saddle.

Most of those who have done much
horseback riding have sad recollections
of having had at one time or another to
jog along for weary miles on the back of an
ill bred, straight patterned nag,
whose every step jarred every nerve in
the body and aroused the most pro-
nounced feelings of resentment. Accord-
ing to the inventor of a new saddle, such
memorable incidents as these need never
more occur and the horseback riding of
the future will be pure, unalloyed delight.
This saddle owes its peculiar merit to a
series of springs. The upper saddle tree
or seat is connected with the lower sim-
ply by these springs, so there is nothing
to interfere with that free working with-
out which no spring saddle can fulfill
the purpose and object of its construc-
tion, viz., to relieve the rider from the
constant jolt experienced in riding on a
springless saddle. The springs are cone
shaped, working within each other, and
are made of tempered steel wire so
placed between the wooden tree and the
upper tree or frame seat (consisting of a
steel wire bent to the shape of the lower
tree and clasped by brass bands which
cross each other) as to work freely
wherever the motion of the horse may
bring the weight of the rider.—Phila-
delphia Press.

France, Germany and Russia.
Till 1870 France held the supreme con-
trol of the peace of the world. No sword
could be unsheathed in Europe without
her consent. Napoleon III was the great
arbiter. A crown from him darkened
the horizon. The day after he expressed
regret to Baron Hubner at not being
in accord with Austria, the stock ex-
changes were in a panic, and Austria
and Prussia concluded a hasty peace be-
fore the master had time to show dis-
satisfaction. Since the war of 1870 this
role has ceased to belong to France.
Germany has usurped it, and her claim
to it is what has revolted the czar, who
remains alone, striving by his deliberate
isolation to neutralize the unwelcome
supremacy of Germany, allowing France
to render him apparent homage in order
to emphasize his attitude, but really
knowing himself to be doomed to immo-
bility as long as he remains outside the
allied empires.—De Blowitz in Harper's.

Those Beautiful Antlers.
Eastern Sportsman (with full assort-
ment of dogs, guns, etc.)—I hear that
over a thousand elk are killed in this re-
gion every year. What do you do with
the antlers?
Western Hunter—Sell them to eastern
hunters on their way home.—Good News.

"German Syrup"

A Throat
and Lung
Specialty.

Those who have not
used Boschee's Ger-
man Syrup for some
severe and chronic
trouble of the Throat
and Lungs can hard-
ly appreciate what a truly wonder-
ful medicine it is. The delicious
sensations of healing, easing, clear-
ing, strength-gathering and recover-
ing are unknown joys. For Ger-
man Syrup we do not ask easy cases.
Sugar and water may smooth a
throat or stop a tickling—for a while.
This is as far as the ordinary cough
medicine goes. Boschee's German
Syrup is a discovery, a great Throat
and Lung Specialty. Where for
years there have been sensitiveness,
pain, coughing, spitting, hemor-
rhage, voice failure, weakness, slip-
ping down hill, where doctors and
medicine and advice have been swal-
lowed and followed to the gulf of
despair, where there is the sickening
conviction that all is over and the
end is inevitable, there we place
German Syrup. It cures. You are
a live man yet if you take it. ©

THE PRESIDENT'S PRECEPTS AND PRACTICE.

President Harrison preaches protection to every home industry, except silver mining and sugar making, and when swinging around the circle professes to have a moral antipathy to everything foreign, save gold bugs. The little man, nevertheless, like many others, whose precepts and practice are at variance with each other, dresses in British broadcloth or French cassimere, which, compared with coarse woollens, are admitted comparatively free of duty. Now he has received an eighteen gallon keg of Scotch whisky imported expressly for personal use at the White House. This keg is merely a trial sample, to be tested before the holidays. It is expected to bring to the Executive Mansion obstreperous Congressmen and hopes are entertained that through its potent influence recalcitrant Republicans, like Simpson, the sockless statesman, of the wild West, may be brought back to the fold. The silver Senators, such as Jones and Stewart of Nevada, Vest of Missouri, Morgan of Alabama and Teller and Wolcott of Colorado, are expected to renounce their allegiance to the white metal, and declare for the gold standard before the keg is emptied, and advocate the amendment of the McKinley bill by a reciprocity clause admitting Scotch whisky free of duty.

If the sample accomplishes what is expected of it and makes the Presidential mansion a popular resort for leading politicians at the National Capital, a barrel or two of the whisky will be ordered for use after New Years, and the renomination of Harrison will be assured before the delegates to the National Convention are nominated.

It is stated as a fact that the free indulgence in Monongahela whisky, which was then the favorite brand at Washington, by Congressmen, led to the secession of the Southern States in 1861, and now it is possible that the judicious use of Scotch whisky at the White House may be the means of extending reciprocity to Europe, popularizing the President's policy with Congressmen, and securing his nomination by acclamation in the National Republican Convention.

Prohibitionists and hard-headed Democrats, who never experienced the delights of getting drunk on Scotch whisky, may urge that the President is setting a bad example to those who advocate the encouragement of home industries by importing not only his wearing apparel, but his beverage, but their voices will be drowned in the acclaim at the White House, when the President, with true Hoosier hospitality, passes the bottle and turns his back.

ANOTHER RAILROAD.

According to report there is a strong probability of another railroad being built from Ogden, Utah, through central Nevada, west to San Francisco. General Manager Dodge, of the Rio Grande Western, is credited with saying that his road will be extended west to the coast. He says three routes have been surveyed to the Sierra Nevada and it is not yet determined which will be selected.

It is not probable that a railroad from Ogden will cross the Sierra Nevada south of Reno. There is no pass through which a road could be built, except at enormous expense, within two hundred miles in that direction, whereas, Beckwith Pass, the lowest in the range, is only twenty miles north of Reno. It may, therefore, reasonably be expected that if the proposed road is built it will touch Reno and cross the Sierra Nevada through Beckwith Pass, where a road-bed has already been built over the Summit, and for thirty miles west, through Sierra Valley and down the Middle Fork of the Feather river, the grading being no more expensive, than a like number of miles through the valley of the Humboldt.

THE IOWA ELECTION.

The Iowa State Register, the leading Republican newspaper of Des Moines, publishes complete election returns from all the counties in the State. The total vote for Governor was 420,214, the largest vote ever cast in the State. The whole Democratic ticket is elected. Boies' plurality for Governor is 7,818, the highest on the ticket, except Dey, Railroad Commissioner, whose plurality is 10,373. This is the first time since 1852 that Iowa has elected the Democratic State ticket, though Boies, the present Governor, was elected on the Democratic ticket in 1889, by a plurality of 6,529. As the contest this year was a square fight between Democrats and Republicans, and the vote was the largest ever polled in the State, the inference is that a majority of the people of Iowa are for free coinage, which the Democratic State platform unequivocally demanded.

In Holland at every railroad crossing stands a woman waving the signal flag of danger as your train passes. Railroad officials will tell you that no accident has ever been caused by a watchwoman's carelessness.

BY TELEGRAPH!

News of Importance From Home and Abroad.

Thanksgiving Proclamation.

WASHINGTON, November 13.—The following was issued this afternoon by the President of the United States:

A proclamation: It is a very glad incident of marvelous prosperity which has crowned the year now drawing to a close that its helpful and reassuring touch has been felt by all of our people. It has been as wide as our country, and so special that every home has felt its comforting influence. It is too great to be the work of man's power; and too particular to be the device of his mind. To God, beneficent and all wise, who makes labors of men to be fruitful, redeems their losses by His grace, and the measure of whose giving is as much beyond the thoughts of man as it is beyond his deserts. Praise, a gratitude of the people of this favored nation, are justly due.

Now, therefore, I, Benjamin Harrison, President of the United States of America, do hereby appoint Thursday, the 26th of November, a day of joyful thanksgiving to God, for the bounties of His providence and for the place in which we are permitted to enjoy them, and for the preservation of those institutions of civil and religious liberty which He gave our fathers wisdom to devise and establish, and our courage to preserve. Among the appropriate observances of the day are rest from toil; worship in public congregation; renewal of family ties about our American firesides, and thoughtful helpfulness towards those who suffer lack of body or of spirit.

In testimony whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this, the 13th day of November, in the year of our Lord, one thousand eight hundred and ninety-one, and of the independence of the United States, the one hundred and sixteenth.

(Signed) BENJAMIN HARRISON, President.

JAMES G. BLAINE, Secretary of State.

The Bank of Madera.

SAN FRANCISCO, November 12.—Cashier McDonald, of the Pacific Bank, said to-day regarding the Bank of Madera, and the John Brown colony in Fresno Co., that the Madera Bank had been reorganized, and is now distinct from any connection with the colony. "We re-organized the Bank of Madera about six weeks ago," he said, "and it is now on a safe financial footing with assets and liabilities balancing at one hundred thousand dollars. The bank was organized and the John Brown Colony was started by W. F. Baird and John Brown about three years ago. The Colony consists of five thousand acres of good land, and there are about three hundred settlers on it. Baird and Brown put a great deal of money into the cultivation of the colony, and we were finally obliged, owing to overdraft on the Pacific Bank, and in order to protect our interests, to make an investigation. We found a number of irregularities due to close connection between the bank and the colony, but nothing of a sensational character, and secured ourselves by having the overdraft turned into bills receivable, and securing an interest in the colony. The bank is now reorganized with Return Roberts, a wealthy capitalist of Madera, as President, and its connection with the colony having ceased, no further complications need ensue. The colony lands are valuable and have been well improved and we do not intend that settlers shall suffer any loss by reason of any transaction between the Bank of Madera and the Pacific Bank through the operations of Baird."

A Mormon Missionary Arrested. Boise, Idaho, November 13.—J. A. Stockie, a wealthy and influential Mormon of Bear Lake Co., has been arrested upon an indictment found against him six years ago for unlawful cohabitation. He has been arrested twice before, but each time escaped. After his second escape he was sent to Switzerland as a Mormon missionary. He is now out on bail. His arrest has caused a sensation, as it is thought that other arrests will follow.

Another Record Broken.

KNOXVILLE, Iowa, November 13.—Joe Jefferson by Thomas Jefferson was driven this afternoon at the Iowa Driving Park driven by his owner, A. L. Sardy, against the world's four-mile pacing record of 10:34 1/4, which he lowered to 10:10. The former record was made by Longfellow at San Francisco in 1861. Joe Jefferson's last mile to-day was 2:23 1/4. He now holds the world's three and four-mile record.

A Prison Investigation.

BOISE CITY, Idaho, November 13.—Investigation into the management of the Idaho Penitentiary by the Prison Commissioners closed last night, and Warden S. Mack was retained. The cause of inquiry was a charge that the Warden permitted brutal prize fights between convicts, and that the guards were drunk while on duty.

A Ship Wreck.

CARMANAH POINT, B. C., November 13.—The British ship Sarah, belonging to Yarmouth, in the United States, bound from Manilla, for Port Townsend, is ashore at Carmanah, and is a total loss. Two of the crew were drowned. Others are safe at the light house.

More Evidence of the Train Wreckers. COLFAX, Cal., November 13.—The claw bar used in the train wrecking near here, was found this morning. It consists of an old drill about twenty inches long, and made in a very clumsy manner, clearly not by a professional blacksmith. It was found about 150 feet from where the rails were taken up and was buried under about three inches of debris in a spot indicated by Al Roberts.

Captain Ray Released.

OMAHA, November 13.—Captain P. H. Ray, formerly Judge Advocate of the Department of the Platte, and at present in charge of a company of Indians at Fort Washakie, who was placed under arrest two weeks ago by order of Major Kellogg, commanding Fort Washakie, charged with insubordination, has been released by command of General Brooke. Captain Ray has now preferred charges against Major Kellogg.

Baird's Reputation.

MADERA, Cal., November 13.—W. F. Baird formerly lived in Streator, Ill., and it is reported that he was connected with the Wilson Bank swindle there. From persons here intimately acquainted with W. F. Baird during his residence in Streator, Ill., his reputation is reported as above suspicion. His connection with the J. G. Wilson Bank as a clerk was previous to that bank's failure.

Gold Found Under the Missouri River. KANSAS CITY, November 13.—The assayer, to whom was submitted a sample of gold ore found in borings under the Missouri river near this city, certifies that it would run \$128 to the ton. The gold is in a peculiar place in the ground under the river bed, and it would hardly be practicable to mine it. Geologists think it is washing in from some gold bearing region.

A petition for the final distribution of the estate of Charles Lux, deceased, to Miranda W. Lux, Henry Miller and Jesse S. Potter, has been presented to the District Court of Nevada in and for Washoe county by the administrator, C. H. E. Hardin, and Saturday, December 19th, and the courtroom of the court in this county, are fixed and appointed as the time and place for hearing said petition.

The weather continues as delightful as could be desired. The atmosphere is clear, the sky cloudless, and the air balmy, with the nights just cool enough to make blankets comfortable. It is doubtful if there is another place on the globe where the weather conditions are as favorable for the amelioration, if not cure, of lung troubles as Reno. No deaths from consumption, save of those persons brought here in the last stages of the disease, are recorded here.

Free Water.

Parties in Reno having good wells or a place for one are throwing away money in paying water rates, when by a small investment plenty of pure water is at their command free of cost. One good well will supply water for several families, who by joining in the expense of erecting a windmill, tank, etc., can not only effect a saving in expenses, but be independent of a monopolizing water service. A visit to the Water Company's reservoir and ditch at times will convince the most skeptical that well water is the doctor's enemy, while surface water is the direct agent in bringing business to his office.

Constant pumping insures pure water from all good wells, hence the quality of well water cannot be judged properly from only occasional pumpings. Many unused wells would furnish plenty of pure, clear water if properly pumped. Can you afford a pumping plant of your own? We will answer for you, Yes. We are prepared to take contracts this winter to erect any sized windmill plant required, with proper tank and service connection, furnishing them on a monthly installment plan, warranting all work and taking proper care of all mills so erected. Plans and specifications free upon application. anti-freezing pumps and protected pipes insure equally as good winter service as in summer. For further particulars call on oct6t

Reno M'rs. Co.

Electro-Plating.

H. A. Waldo is constructing, in connection with his local telegraph battery, an electro-plating apparatus, and will soon be ready to do all kinds of gold, silver, nickel and composition plating. He is now prepared to plate or replate spoons, knives and forks, etc., and make them as good and nice as new. The plating is no wash, but is a heavy coating of melted metal applied to the article, which is durable and will not scale off. Those having table knives, forks and spoons which they wish replated will do well to give him a trial. 1216

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

Don't Forget

The social dance at Armory Hall every Saturday night. Music by Fredrick's orchestra. Admission 50 cents. Ladies free.

BREVITIES:

James Miller of Long Valley is in town.
James T. Davis of Mound House is in Reno.
Frank B. Poor left last night for California.
T. T. Harris of Elko is in Reno visiting friends.
George McLaughlin has returned from San Francisco.
George Humphrey of Sierra Valley arrived in Reno last evening.
J. L. Wines returned to Carson yesterday to attend the Hamilton trial.
Hon. H. F. Bartine came down from Carson yesterday on the local.
A house on Commercial Row for sale at a bargain. See 50-cent column.
E. F. Pierce and wife of Carson were passengers for California last night.
Twenty carloads of fat cattle were shipped from Reno to San Francisco yesterday.
Governor Russell, of Massachusetts, has appointed Thursday, November 28th, as Thanksgiving Day.
Lost—A sack of quartz specimens, for the recovery of which a liberal reward will be paid. See 50-cent column.
The Salt Lake Exchange Journal says ore from Eastern Nevada analyzed by Professor Hirschling contained ten per cent. of tin.
Professor Ring, State Superintendent of Public Instruction, is making an official visit to the schools in Central and Eastern Nevada.
The Elko Independent says range cattle are in better condition than for years past. They are sleek and fat and able to endure a long, hard winter.
"Buffalo Jones," of Wyoming, is taking ten buffaloes to Charles Leland, of Liverpool, England, for which he is to receive \$10,000 if he delivers them safely.
The Central Nevada says 100 tons of antimony ore arrived at Battle Mountain Monday, and 25 tons of silver ore from Austin was expected there yesterday.
Members of the Why Club are requested to meet again at the office of Charles A. Jones, Sunday, November 15th, at 2 p. m. "As the woodbine twineth so bends the spout."
A landslide near Roseburg, Oregon, exposed the jawbone of a prehistoric animal. Scientists say it is the left anterior portion of the lower jawbone of a mastodon or diatherium.
Alvaro Evans has just returned from a trip to Churchill county. He says the farmers in that section have sold nearly all of their hay, and those who have not sold have cattle to feed it to.
George A. Vardy, Grand Chief Templar of the I. O. G. T. Order of Nevada, came down from Virginia City yesterday to attend a meeting of the State Executive Committee of the I. O. G. T.
The Silver State learns from Captain John Smith that there are thousands of antelope and numerous deer in the Stein Mountain country, and the streams are chock full of trout, making the region a hunter's paradise.
An Illinois man brought a suit for \$100,000 damages for the death of his wife, which was caused by an accident on a railroad in that State, though it is shown that he had commenced proceedings in Chicago to secure a divorce from her.
James P. Davis, who was taken off the train here Wednesday in a dying condition, was buried yesterday. Commissioner Hymers telegraphed to Boise City, Idaho, that Mr. Davis had died, and his friends in that city requested Mr. Hymers to have him buried here.
General C. C. Powning has been appointed by Governor Osceola one of the representatives from Nevada to the Mining Congress which is to be held at Denver on the 18th instant. Nevada was not represented at the Omaha Congress when the vote on free coinage was taken; it is hoped it will be at Denver.
Captain John Smith tells the Silver State that an extensive and disastrous fire, the origin of which is unknown, occurred Colonel Hardin's ranch last Monday. About 1,000 acres of meadow land was burned, and it was only by the most strenuous efforts of the ranch hands and neighboring ranchers that the buildings and hay stacks were saved.
The Silver State says: "The ranchers on Quinn river alone will feed about 3,000 head of beef cattle this winter. The ranges of all the principle cattlemen in the county have been pretty thoroughly stocked this summer, and as the hay crop this year was large and feed will be plentiful, large shipments of cattle will undoubtedly be made from Winnemucca next year."
Surveyor Chalmers is engaged in surveying the site for Thompson's proposed new hotel near the Riverside. The hotel will cost \$100,000; the grounds adjoining will be beautified regardless of expense; an electric railroad will convey guests to and from the hotel to the depot, and baths, which will be supplied with hot water from Laughtons or Steamboat Springs, will be erected for the convenience of guests.

RENO PUBLIC SCHOOLS.

Reports and Honor Rolls for October, 1891.

Following is Principal Bray's report to the Reno School Board for the month of October, 1891. There is a slight increase in attendance over the previous month, and a lively interest is being taken in the work. The attendance is larger now than at any time in the last year:

NAMES OF TEACHERS.		DEPARTMENTS.		No. of Boys		No. of Girls		Total		Average daily attendance		Per Cent. Attended		Neither Total		Total		No. of Teachers
